

SERVICES PELLENC ST

Connected & turnkey service package solutions to boost production performance

Service PACK

All-in-one solution

- + Pellenc ST is reinventing the service approach with the launch of an all-in-one solution: the **Service PACK**. The Service Pack is a **simple and comprehensive service** aimed at **increasing performance**, while **controlling costs**.
- + It combines **Smart Visits, personalised reports**, supported by machine information, with **standard maintenance, spare and wear parts**, as well as **24/7 helpdesk assistance** for any request.

Service CONNECT

Connected Solution

- + **Service CONNECT** guarantees our customers the highest level of service, as well as the delivery of **personalised reports** and analysed information during **maintenance visits**.
- + **Pellenc ST systematically includes one year of 24/7 on-site and remote services** with the purchase of a Mistral+ CONNECT.

24/7 remote support

- Performed by local support engineers
- 90% call resolution rate
- Smart alert monitoring

Local support

- Pellenc ST Field Service Engineers
- High reactivity
- Local spare parts stock
